PROFILE SUMMARY

ECE Student | Software Developer | Java | AWS Cloud Enthusiast
Electronics and Communication Engineering student interested in software development, proficient in Java and Data Structures & Algorithms, with foundational experience in MERN stack web development. Exploring AWS cloud technologies for deploying and managing applications.

EXPERIENCE

Full Stack Web Development — May 2025 - July 2025

VIRTUAL INTERNSHIP | IIDT & BLACKBUCKS

- Acquired practical exposure in the MERN stack by building and deploying web applications with React, Node.js/Express, and MongoDB.
- Practiced working with APIs, user authentication, and databases to understand full-stack concepts.

PROJECTS

JobHunt-Online Job Portal — MERN Stack

Repo link

- Developed a full-stack job portal with **role-based authentication** for recruiters and job seekers using MERN stack.
- Implemented backend services using **Node.js, Express**, and **MongoDB** for data handling.
- Designed a responsive **React** frontend using hooks and protected routes for secure access.

Movie Stream - Netflix Clone — React.js | Firebase

Repo Link

- Built a Netflix-inspired streaming web application using **React.js** and **Firebase**, implementing user authentication with Firebase Authentication and enabling secure content browsing and media playback.
- Developed a fully responsive user interface with React and styled-components, ensuring seamless cross-device performance.

Student Management System — Java | MySQL | JDBC

Repo Link

- Built a console-based application with **CRUD operations** (add, update, delete, view) using JDBC.
- Designed and connected a **MySQL database schema** with Java for real-time data management.

TECHNICAL SKILLS AND INTERESTS

- **Languages :** Java, Python(basic), HTML, CSS, JavaScript.
- **Concepts :** DSA with Java, OOPS using Java, DBMS, OS, CN.
- **Libraries/Frameworks :** React.js, Node.js
- **Tools/Platforms**: Git, Postman, GitHub, VS Code.
- **Cloud/Databases**: MySQL, MongoDB, AWS (Foundations).

ACHIEVEMENTS

- Led a 5-member team at the "**Prajwalan**" **Hackathon** to design and prototype a solution under tight deadlines, improving **team coordination** and delivering a working product within 24 hours.
- **Organized my department's technical fest** as part of the campaign team, **collaborating** with peers to manage promotions and outreach across multiple colleges, resulting in a 30% increase in participant registrations.
- Solved 100+ coding problems on **LeetCode** enhancing logical thinking skills in Data Structures and Algorithms (DSA).
- 🥇 Awarded the **Central Sector Scheme (CSS) Scholarship** under the **National Scholarship Portal (NSP),** receiving ₹12,000 annually for academic excellence.
- Stood as **Runner-up** in **NEXUS** during **TRANCE-2K24**, a national symposium hosted by the ECE department, for delivering a technically sound and collaborative solution under a competitive environment.

CERTIFICATIONS & ONLINE PROFILES

- Full Stack Development with MERN- IIDT & Blackbucks, 2024
- AWS Cloud Foundations - 2025

GeeksForGeeks Profile : 22B91A04L7
LeetCode Profile : 22B91A04L7
HackerRank Profile : 22B91A04L7

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering
SRKR Engineering College | CGPA : 8.72 | 2022-2026

Intermediate (M.P.C)
Aditya Jr College | 97.9 % | 2020-2022

SSC
St. Dominic's English Medium School | 2019-2020
